

Case Study

A local family attended a Time 4 U Café event in Barrow Hill, Chesterfield, which is one of the 10% most deprived wards in England.

Through conversation it transpired that the family had problems with their housing and difficulties associated with a child who has learning difficulties. The family lacked confidence and the knowledge to resolve problems.

They were supported to access help through Borough Council Housing department and Citizens Advice Chesterfield. This released a lot of everyday stress and anxiety.

The father attended smoking cessation support, has managed to stop smoking and accessed GP health referral scheme.

This has developed his confidence and helped him realise he can achieve things.

Since then, the father has:

- volunteered on local projects
- is part of the community action group which has organised an area clean-up day
- worked to improve the Memorial Club for the school holiday hunger programme
- been involved in setting up a youth club
- become a member on the Barrow Hill Community Trust Board

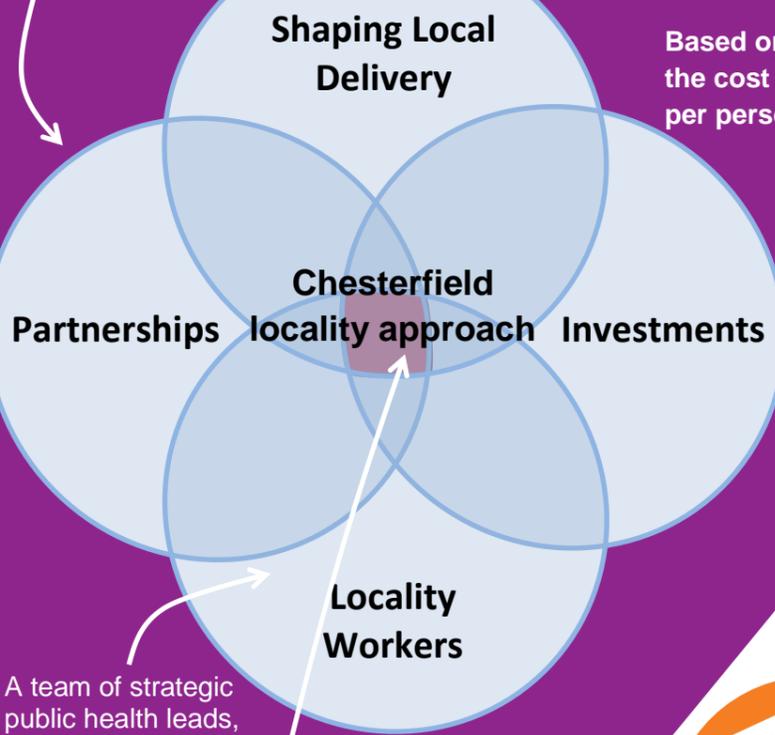

Chesterfield Public Health Prevention in Partnership for People and Places Annual Report 2017-18

*Social Return on Investment (SROI) is a way of measuring the social impact of interventions /actions/activities. It uses a monetary value to represent the benefits gained. (HACT and Daniel Fujiwara (2017), Community Investment Values from the Social Value Bank.)

Update on Chesterfield's Targeted Approach:
Innovative way of accurately identifying local needs and proactive engagement of vulnerable people in targeted areas of Chesterfield. Enabling sustainable development within communities by placing local people and partners at the centre of decision-making to encourage local ownership. Networks which each function effectively have been established in

South Chesterfield, Loundsley Green and Staveley.
These networks form a vertical thread between Chesterfield Health and Wellbeing Partnership Board and community level

12,410
Chesterfield residents are benefiting from taking part in local projects and services

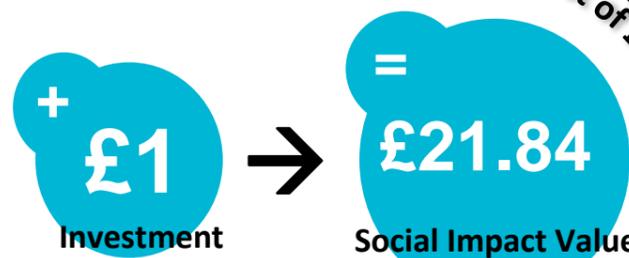

*What next?
