

Derbyshire Public Health

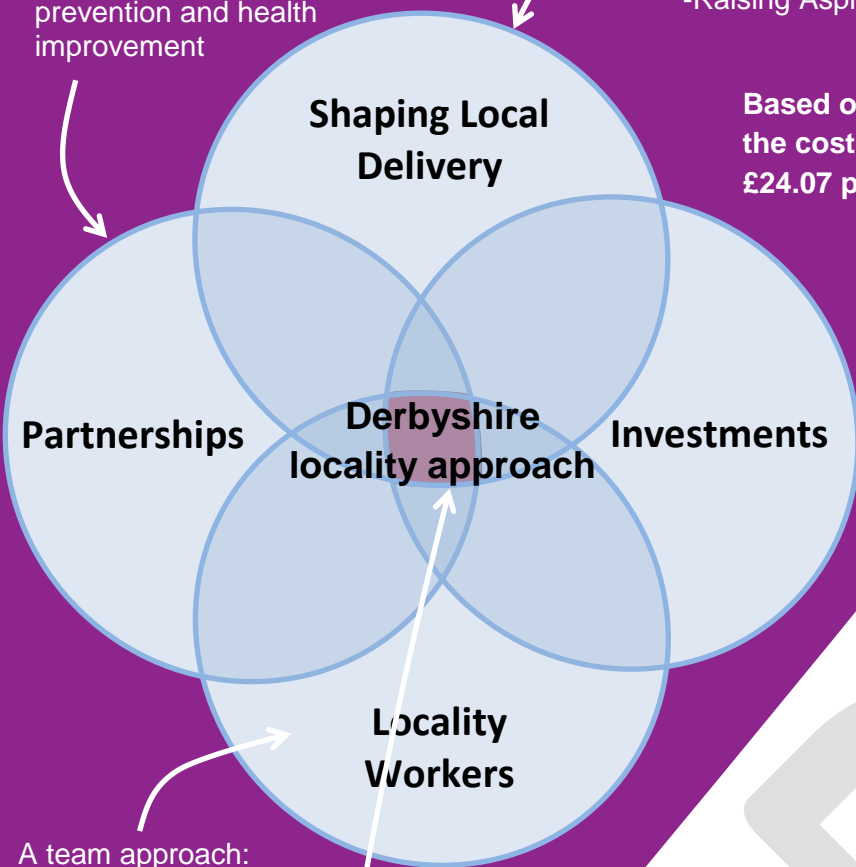

Prevention in Partnership for People and Places ...

Annual Report 2017-18

Derbyshire's locality partnership working also supports delivery of the Council's countywide Public Health programmes, including:-

- Dementia Friends
- Live Life Better Derbyshire
- Feeding Derbyshire
- Five ways to wellbeing
- Derbyshire Healthy Workplaces
- Raising Aspirations

Health and Wellbeing Partnerships operate in all 8 localities; partners agree local priorities and drive a joint approach to prevention and health improvement

Based on investment of £890,000 the cost of participation is £24.07 per person

A team approach: strategic public health leads, community health development workers and jointly funded staff working with local partners and communities across the 8 localities

Impact on the lives of local people

Public Health locality teams have engaged and supported **848** local groups and networks across the county, including **Locality Health and Wellbeing Partnerships**

1,775 people said their financial wellbeing was better

3,074 people said their mental and emotional well-being was better

£890,000 invested

1,997 people supported with drugs and alcohol awareness and access to services

625 people supported to live better with a long term condition

262,870 contacts via websites, leaflets and events

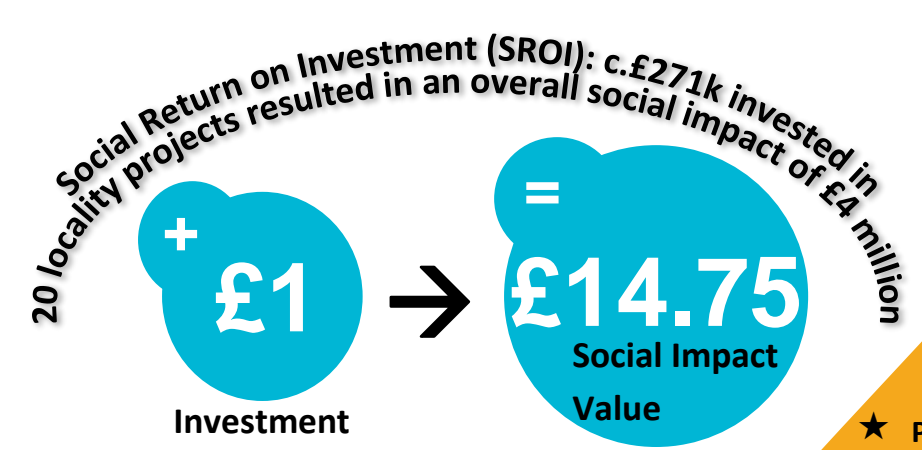

1,489 more opportunities created for employment, education and training

36,962

Derbyshire residents are benefiting from taking part in local projects and services

10,384 sessions delivered

68% of people taking part completed

26 locality projects attracted an additional **Match Funding** **£231,510** of investment to spend in local neighbourhoods

What next?

- ★ **Place:** Work with Place Alliances to create a shared vision for health and well-being for local communities
- ★ **Prevention:** Use matrix working to strengthen links between countywide and locality programmes
- ★ **Partnerships:** Invest in local relationships and encourage public health outcomes to become embedded in the strategies and delivery plans of partners
- ★ **Resources:** Explore opportunities for jointly resourced initiatives with partners – achieving greater value for money and social impact

*Social Return on Investment (SROI) is a way of measuring the social impact of interventions /actions/activities. It uses a monetary value to represent the benefits gained. (HACT and Daniel Fujiwara (2017), *Community Investment Values from the Social Value Bank.*)
